Author

CHRISTINE HSIEH  
Startup Executive

Do you ever think about your professional future or what professions will be like in the upcoming years? Then don't hesitate and join us next **March 27th at 5 pm EDT** for an **online fireside chat** on "**The Future of Work**".

Our esteemed host, [Javier Prieto](#), from the [Dalai Center at MIT](#), will talk with [Gary A. Bolles](#), author of the "The Next Rules of Work" and [Christine Hsieh](#), entrepreneur in residence at MIT.

Whether you're dreaming of becoming a coder, a scientist, an artist, or anything in between, this session is for you!

**About [Richi Innovation Camp Boston Talks](#):** A series of free streamed fireside chats designed for high school students eager to learn, unlock their potential, and contribute to a better world. Every chat will focus on a specific topic and give students the tools they need to boost their personal journey and ignite their passion for making a difference.

**About Richi Innovation Camp:** Richi Innovation Camp's mission is to ignite inspiration, nurture passion, and cultivate the leaders of tomorrow. It is an international summer camp that brings together a passionate group of students (14 - 17 years old) from all over the world to interact and learn from Boston's innovative ecosystem. Boston Talks will give real samples of the sessions and the speakers RIC's participants will encounter during the camp.
